A technical drawing of a mechanical assembly, likely a pump or valve mechanism, shown in a cross-sectional view. The drawing includes several numbered callouts: 1 points to a central vertical shaft or piston rod; 2 points to a horizontal component on the left, possibly a handle or lever; 3 points to a conical or wedge-shaped part; 4 points to a vertical pin or screw; 5 points to a top cover or cap; 6 points to a bottom base or support; and 7 points to a small circular component, possibly a seal or O-ring. The assembly consists of multiple vertical columns or pistons arranged in a row, connected by a common horizontal structure at the top and bottom. The drawing uses hatching to indicate different materials or cross-sections.
